From written policies to forms, employee training materials, auditing tools, unlimited assistance, web-based training documentation, and much more, the compliance options from Eagle will provide a complete compliance solution for your practice.

- HIPAA - Our HIPAA Compliance System includes policies to meet all Privacy, Security and Breach Notification Rules, a Security Risk Analysis and self-audit tools.

- OSHA - Our Custom Safety Program incorporates all relevant federal safety standards, and includes special safety policies that are often overlooked. We will help you to identify the policies that are necessary for your specific workplace.

- OIG - Our Office of Inspector General Compliance Program will provide you with a fraud, waste and abuse prevention program that is required for participation in all government-sponsored programs, such as Healthy Kids and Medicare plans that provide dental benefits.
