

# Contact Lenses for Every Need

People like to have choices when it comes to their eyewear. That's why we offer flexible plans and enhancement programs for your contact lens wearers.

## Signature Contact Lens Care Program

Members who currently wear soft contacts or are interested in soft contacts may benefit from our special Signature Contact Lens Care Program. The program is designed for qualified members who visit their VSP® doctor and is based on three tiers\* to provide members the widest selection of the most popular lenses on the market, including toric, multifocal, and hydrogel lenses. Also eligible members can choose to participate in the program regardless of their contact lens allowance.

\*If the member selects a lens from a tier that is above their allowance they may pay the difference between their allowance and the tier price. If the member selects a lens from a tier that is below their allowance they may apply the remaining allowance balance toward additional contact lenses. Some members may require additional premium services when being fitted for contact lenses. VSP doctors will determine if a member is qualified for this program.

## Elective Contact Lens Allowance

We believe choice is important and members can always choose any contact lens brand. If a member chooses a contact lens not currently part of the Contact Lens Care Program, they have the flexibility to use their elective contact lens allowance anyway they choose. The allowance can go toward a contact lens fitting and evaluation and the contact lenses themselves. Members will always receive 15% off additional contact lens services from their VSP doctor.

## Good eyecare supports good health.

That's why contact lens wearers need a comprehensive eye exam in addition to a contact lens fitting and evaluation. A thorough exam can catch early warning signs of serious health conditions like diabetes, high blood pressure, and high cholesterol.
