Cyber Liability/ Data Breach Insurance

Dental practices, regardless of size, are rich storehouses of protected financial and health information. As such, they are at great risk for attacks by cyber criminals or other security incidents where this information is compromised. For as little as \$450 per year, you can protect your practice from these growing threats.

My information		
First name	Last name	Entity / Practice name(s)
Practice address location(s) <i>(please list all locations and include city, state and ZIP)</i>
