

## 2024 Proposed Plan Changes – Attachment 14

Update True out of Pocket Maximums (TROOPs): There is a standing resolution to increase the true out of pocket maximums annually to the prior year's federal maximum. No board vote necessary.

Livongo: Priority Health has partnered with Livongo to provide a diabetes management program to their clients and members.

The diabetes management program provides the following to members enrolled in the program:

- Blood glucose meter
- Unlimited test strips and lancets
- Personalized health signals
- Educational content
- Food logging and nutrition tracking
- Health summary reports
- 24/7 emergency responses
- Dedicated Health Coach

The cost of this program is \$72 per enrolled member per month. There are currently 84 members with a diabetes diagnosis on the plan. Priority Health estimated that 25% of members will enroll on the program, which would result in an estimated \$18,144 cost to the plan.
