

Medication Therapy Management Update

- Priority Health is sunsetting the Medication Therapy Management program on June 30th, 2023.
- In the June 2022 Board meeting, incentivizing the program was discussed. Due to the program sunsetting in 2023, this will not be pursued.

Diabetic Prevention Management

- In the June board meeting, the group discussed incentivizing participation in the Diabetic Prevention Management program that Priority Health offers.
- Priority Health is unable to pay out the incentives for this, so MDA will not be moving forward due to the administrative burden.
